'Let it Begin with Me';

I am responsible....when anyone, anywhere, reaches out for help, I want the hand of A. A. always to be there. And for that: I am responsible.

Let us never fear needed change. Certainly we have to discriminate between changes for worse and changes for better. But once a need becomes clearly apparent in an individual, in a group, or in A. A. as a whole, it has long since been found out that we cannot stand still and look the other way.

The essence of all growth is a willingness to change for the better and then an unremitting willingness to shoulder whatever responsibility this entails.
